Cybersecurity and Data Governance Frameworks

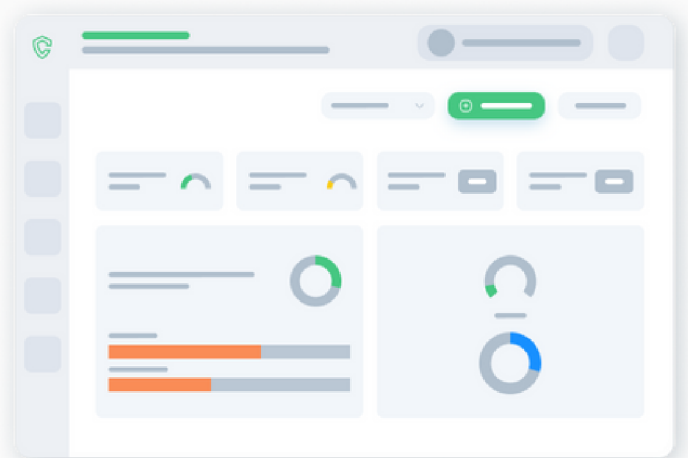

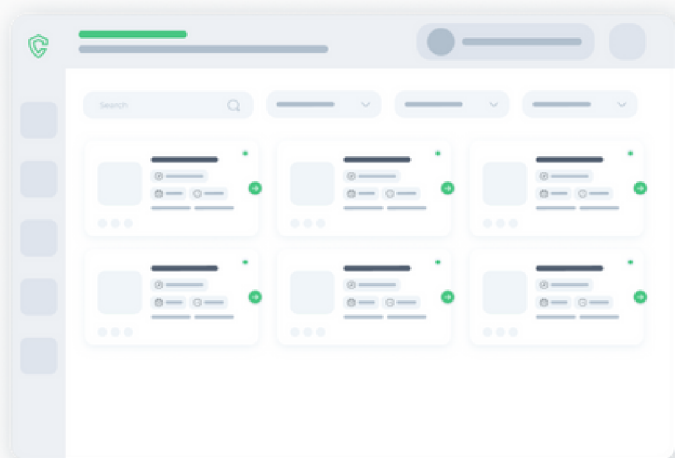

National and Sector-Level Frameworks

Accelerate your compliance journey

We make cybersecurity and data privacy compliance a breeze.

Meeting Cybersecurity Compliance obligations remains a pain point for organization in a variety of industry sectors. Our SaaS COMPLYAN platform helps Information Security Officers and CISOs manage the level of compliance towards cybersecurity and data protection regulations, standards, and frameworks in an easy-to-use service.

SaaS Cybersecurity Compliance Platform accelerating the compliance journey for organizations.

Complyan is a SaaS Cybersecurity Compliance Platform from **DTS Solution** - a leader in cybersecurity advisory and consulting firm serving the industry since Y2011.

✓ Configurable and easy to use

Easily configure the platform to onboard different cybersecurity and data protection frameworks from the marketplace that you want to comply to or benchmark on.

With RBAC functionality, different stakeholders can be assigned different security controls and sub-controls to ensure the compliance status can be assigned to owners to complete.

✓ Access information when you need it

With built-in capabilities of dashboarding and reporting we have allow different stakeholders; CISO, Security Officers, Auditors, Compliance Officer, Risk Officers to access dashboards and reports on the compliance status against cybersecurity and data protection frameworks.

Our platform gives easy access and drill down capabilities to the compliance data.

✓ Integration with all Compliance standards

We have already integrated all regional and international information and cybersecurity standards and data protection regulations- UAE IA, Dubai ISR, ADHICS, UAE PDPL, ADGM FSRA, DFSA, SCA, CBB, CBK, SAMA, CMA, and international frameworks ISO27001, NIST CSF, PCI, SWIFT.

We continue to add additional frameworks with the ability to create your own SAQ, Questionnaires and Checklists.

✓ Integrated approach to Compliance

Identify compliance gaps, risks related to management and technical controls, cyber threats, risk exposure and compliance posture, ensure your business manages cybersecurity activities and initiatives for the workplace, workforce and workload are adhering to global, regional and industry standards.

With decades of experience in implementing information security management system, conducting cyber risk assessments and achieving compliance towards cybersecurity frameworks, standards and guidelines.

We understand your challenges.
