

# Cybersecurity Assurance and Compliance Platform

## Conquer Compliance, Deliver Assurance and Streamline Security

Cybersecurity and Compliance Challenges in the Financial Institutions in the Middle East and globally face growing pressure from regulators, customers, and boards to manage cyber risk, ensure operational resilience, and demonstrate continuous compliance.

Financial services, today are facing unprecedented compliance challenges. Regulatory mandates across the GCC such as UAE Central Bank’s ISR, SAMA’s Cybersecurity Framework, Central Bank of Kuwait (CBK), and QCB guidelines are becoming more stringent and dynamic. Meanwhile, global standards like ISO 27001, GDPR, PCI DSS, NIST, and FATF are essential for cross-border operations and international credibility.

**The challenge faced by financial services providers:**

- Rising cyberattacks on banks, fintechs, and insurance providers.
- Complex, overlapping regulations (e.g., SAMA, NCA ECC, PDPL, GDPR, ISO 27001).
- Increased scrutiny from central banks and external auditors.
- High cost of non-compliance and data breaches.
- Manual processes and outdated tools slowing down audits and reporting.
- Fragmented governance across subsidiaries and international branches.

## INTRODUCING COMPLYAN...

An All-in-One SaaS Cybersecurity Compliance Platform that solves many challenges financial organizations face. Improves governance, quantifies cyber risks, supports building a roadmap, and enhances cyber maturity.

### Complyan simplifies your challenges

- **Unified Compliance Management**  
Manage multiple regulatory frameworks (local and international) from one platform mapped intelligently to avoid duplication and ensure faster alignment.
- **Real-Time Risk and Compliance Dashboards**  
Gain instant visibility into your compliance posture, risk exposure, and control effectiveness with executive-level dashboards and automated reporting.
- **Automation of Control Testing and Evidence Collection**  
Reduce audit preparation time with built-in workflows, version control, alerts, and centralized document management.
- **Designed for Compliance and Security Teams**  
Built with input from CISOs, auditors, and compliance officers tailored to support internal audit, cybersecurity, data protection, and risk management functions.
- **Scalability for MSSP's and Consultant**  
Enterprise-ready multi-tenant architecture enabling centralized governance with subsidiary-specific compliance tracking, unified reporting, and granular control mapping for corporate groups.
- **Regionally Aligned, Globally Capable**  
Supports UAE IA, SAMA, NCA, CITRA, CBK, CBJ, QCB, ADGM, DIFC, and more - alongside ISO, GDPR, SWIFT, PCI DSS, and NIST.

### Benefits of Complyan

- **Unified Platform**  
One interface for all your local and global compliance needs.
- **Automation and Compliance Framework**  
Comes preloaded with the full control set of standards, mapped for tracking, auditing, and implementation.
- **Policy and Procedure Management**  
Centralized repository to create, store, update, and version-control policies aligned with your control categories.
- **Alerts and Reminders**  
Sends automated reminders for periodic control checks, updates, and review cycles in line with your framework requirements.
- **Evidence Collection and Audit Trail**  
Automates documentation of control implementations, making it easier to provide auditors with verified evidence. Reduce audit prep time by 50%+.
- **Real Time Dashboards**  
Risk Visibility, Real-time risk and control dashboards improve decision-making.

Whether you're a bank, fintech, insurer, or investment firm Complyan empowers your teams to simplify compliance, reduce risk, and build trust in a complex regulatory world.

**Visibility**  
Gain 360 degree view

**Efficiency**  
Streamline GRC and reduce cost
