

Healthcare Cybersecurity Assurance and Compliance Platform

Conquer Compliance, Deliver Assurance and Streamline Security

Complyan's Cyber GRC automation empowers healthcare providers to proactively manage risk, meet regulatory demands, and ensure safe, uninterrupted care delivery.

The healthcare sector is under growing pressure to protect sensitive patient data, meet complex local and international regulations, and maintain operational resilience in a digitally connected world.

With rising cybersecurity threats 80% of cyberattacks in the Middle East result in confidential data breach and strict patient data sovereignty laws (e.g. UAE PDPL, Saudi NDMO), manual compliance processes are unsustainable.

The challenge faced by healthcare provider:

Increasing cyber breaches than other sectors

Complex and overlapping regulatory frameworks

Cost of healthcare breaches averages \$8.1M (within MEA)

Stricter inspections (e.g., DHA, DHCC) with heavy penalties

Manual audits, siloed tools, limited system-wide visibility

INTRODUCING COMPLYAN....

An All-in-One SaaS Cybersecurity Compliance Platform that solves many challenges financial organizations face. Improves governance, quantifies cyber risks, supports building a roadmap, and enhances cyber maturity.

Use cases of Complyan in healthcare

- **Regulatory Compliance Management**
Preloaded templates & controls for GCC and global frameworks.
- **Internal Audit & Risk Reporting**
Centralized findings, evidence tracking, risk heatmaps
- **Policy Lifecycle Automation**
Automate SOP, privacy, and security policies across the organisation.
- **Multi-Entity Compliance Visibility**
Unify oversight for hospitals, clinics, labs, telehealth
- **Cybersecurity & Data Governance**
Map technical controls to compliance; cyber insurance readiness

Key Benefits

- **Unified Platform**
One interface for all local + global compliance needs
- **Audit Rediness**
Instant reports, evidence logs, and action tracking
- **Automation**
Reduce external consultant hours and manual efforts
- **Agility**
Adapt quickly to changing laws and inspection
- **Increase Patient Trust**
Showcase commitment to data privacy and protection
- **Stronger Governance**
Clean records, fewer audit findings

Governance frameworks supported

Governance Frameworks supported within healthcare organizations:

- UAE: DoH, DHA Health, MOHAP, Data Law, UAE PDPL
- Bahrain: NHRA
- Kuwait: CITRA
- Saudi Arabia: NHIC, SDAIA, PDPL, NCA
- Oman: MoH, NCSC, PDPL
- Qatar: MoPH, NIAP, CDP

Global governance frameworks supported :

- HIPAA - Health Insurance Portability and Accountability Act
- ISO/IEC 27001 - Information Security Management System (ISMS)
- ISO/IEC 27799 - Health Informatics, Information Security for Health Sector
- ISO/IEC 22301 - Business Continuity Management
- GDPR – General Data Protection Regulation
- NIST National Institute of standards and Technology
- and many more...
