

Achieve Compliance with UAE IA to Strengthen Security and Gain a Competitive Edge

COMPLYAN – An All-in-One SaaS Cybersecurity Compliance Platform that solves many challenges organizations face. Improves governance, quantifies cyber risks, supports building a roadmap, and enhances cyber maturity.

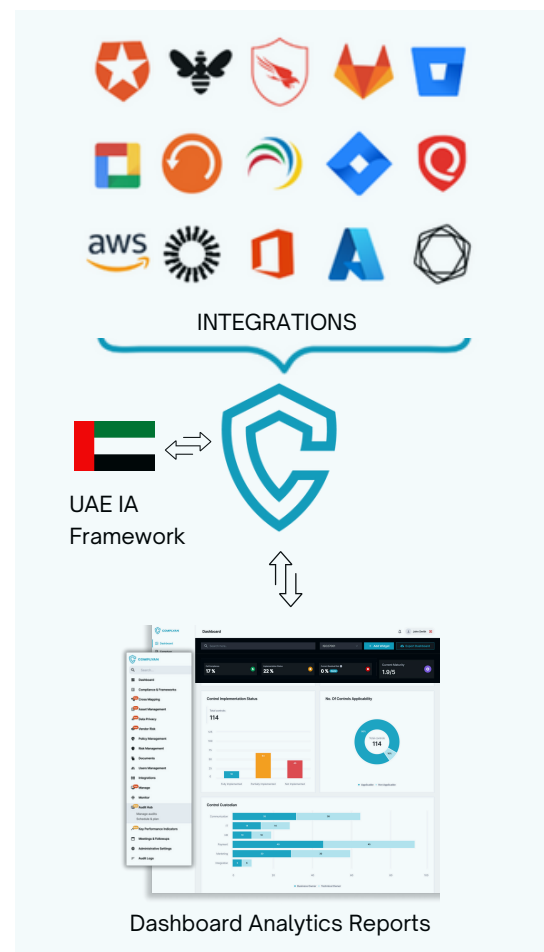

Seamless Compliance with Complyan

The UAE IA framework is a national standard for cybersecurity management, designed to enhance the resilience of UAE based organizations. Complyan streamlines the implementation of the latest UAE IA requirements, ensuring full compliance for entities operating within the UAE.

By automating compliance processes, Complyan helps organizations strengthen their security posture, demonstrate ongoing commitment to cybersecurity, and remain fully prepared for UAE IA audits

Key Features

- Automated compliance tracking and evidence collection.
- User-friendly dashboards and risk heatmaps.
- Pre-built UAE IA controls library.
- Integration with existing ITSM and security tools.
- Audit-ready reporting and documentation.
- Multi language support (Arabic/English).
- Dedicated local compliance experts (Arabic/English).
- Executive Reporting and Dashboards.
- Supports both IT and OT environments, which is critical for organizations in energy, healthcare, and critical infrastructure sectors.

Complyan UAE IA Service Pillars

1. Gap Analysis & Risk Assessment

Evaluate existing controls vs. UAE IA requirements; identify gaps and vulnerabilities.

2. Policy & Procedure Development

Develop, review, and enhance security policies aligned with UAE IA controls.

3. Compliance Automation

Automate compliance tasks, evidence collection, and tracking.

4. Security Awareness & Training

Conduct UAE IA-specific training for all user levels, including phishing simulations & tabletop exercises.

5. Continuous Monitoring & Reporting

Ongoing monitoring of compliance posture; generate real-time dashboards and audit-ready reports.

6. Incident Response & Business Continuity

Establish and test IR & BC plans as per UAE IA mandates.

7. Third-Party Risk Management

Assess and manage compliance of supply chain partners and third-party services.

Benefits of Complyan

- **Automated Compliance Framework**
Comes preloaded with the full control set of UAE IA standards, mapped for tracking, auditing, and implementation.
- **Policy & Procedure Management**
Centralized repository to create, store, update, and version-control policies aligned with UAE IA control categories.
- **Real-Time Dashboards**
Provides real-time compliance posture visualizations including UAE IA-specific KPIs, control coverage, and risk heatmaps.
- **User & Role-Based Access Control**
Ensures only authorized personnel access or update specific GRC data, in compliance with confidentiality principles.
- **Audit & Reporting Tools**
Generates audit-ready reports aligned with UAE IA framework, including control maturity, risk register, and action tracking.
- **Gap Analysis & Risk Assessments**
Enables users to perform structured gap assessments against UAE IA controls and generate prioritized remediation plans.
- **Evidence Collection & Audit Trail**
Automates documentation of control implementations, making it easier to provide auditors with verified evidence.
- **Alerts & Reminders**
Sends automated reminders for periodic control checks, updates, and review cycles in line with UAE IA requirements.
- **Incident & Risk Management**
Supports tracking of security incidents, their root causes, and their linkage to UAE IA-mandated risk treatment processes.
- **Security Awareness Integration**
Offers training management modules to track and document cybersecurity awareness sessions, a UAE IA requirement.
